## CONDITION OF THE MARKETS

Wheat Fluctuates in a Narrow Range and Exhibits No Special Feature.

Large Receipts of Corn Cause a Weakness of Prices-Oats Quiet and Lower-Provisions Very Dull and Without Interest.

MONEY, BONDS AND STOCKS.

A Day of lutence Duliness in New York, with a Dull but Firm Closing. NEW YORK, June 8 .- Money on call was

easy at 131; per cent, the last loan being made at 14 per cent : closing offered at 14 per cent Prime mercantile paper, 4 &6 per cent. Sterling exchange was dull but steady at

\$4.864 for sixty-day bills and \$4.884 for demand. The total sales of stocks to-day were 96,681 shares, including the following: Delaware, Lackawanna & Western, 5,800, Louisville & Nashville, 3,900; Missouri Pacific, 3,992; Northwestern, 3,125; Northern Pacific, preferred, 3, 680; Reading, 24,000; St. Paul, 21,735; Union Pacific, 5,910; Western Union, 3,150.

The stock market again broke the record for duliness during the present depression in business, the total number of shares sold being only 96.681. The firm tone of the past two days also was lacking, and prices this evening are fractionally lower for the majority of the list, though the transactions of the day, with the final results, are of very little moment. The uneasy feeling in the London market over the rumor of passage by the Denver & Rio Grande of the dividend on its preferred stock made the early figures from that center lower than our last evening's closing prices, and the raders, thinking they saw an opportunity to make a turn, jumped on the market. In order to aid in the work of depressing prices a story was circulated that the Missouri Pacific directors had met, yesterday, and decided to pass the next dividend; but the fact is that the meeting of directors will not be held until next week. and there is, as yet, nothing to indicate that a hividend of at least I per cent. Will not be The rumor on Missouri Pacific had no effect whatever, but the story on Denver was sufficient to force its price off 27 per cent. from its last previous sale, only a small fraction of which was recovered. The market presented no other feature whatever, except a marked improvement in Oregon Improvement shares, which roseson a small business 2½ per cent. The "bears" had the action of the Iowa Railroad Commissioners to help them to-day, and first prices were from to per cent below last night's figures, and further fractional losses were sustained in the early trading, Kaneas & Texas losing ? per cent.: but the animation in the market was soon over, and for the remainder of the day up to delivery hour the most intense stagnation marked the transactions and the fluctuations were confined, except in the stocks above men-tioned, to less than a per cent. The losses made induced some covering by the traders toward the close, which was dull but firm at small fractions below first prices, as a rule, the largest decline being 2 per cent. in Louisville & Nach-

The railroad bond market was much the same In character as the dealing in shares, though there was more activity displayed, the sales amounting to \$1.144,000, to which Texas Pacific new firsts contributed \$226,000. Fluctuations, however, were on the same limited scale, and the final changes for equally small fractions. Government bonds were dull and steady. State bonds were dull and featureless. Clos-

4 3-16c. Rosin dull. \$1.20@1.25.

Ergs firmer and in fair demand, Western 16@ Pork dull and easy; mess quoted \$14.50 eld; \$15.25.215.50; new. Cut meats arm; pickled bellies, 72c. Lard demand 3.25 points, closing heavy. Western

steam, spot, 8 80c; June, 8.75c; July, 8.76 9.8.82c; August, 8.79 28.86c; September, 8.82 28.84c; October, 8.80 28.86c; city steam, 8.15c. Butter in good demand and firm, Western, 12 2 194c. Cheese stronger; fair inquiry; Chio flat, 7 2 8c.

CHICAGO, June 8 .- At the opening on Change to-day prices for cereals and hog praiducts ruled slightly lower than the closing pri cos last night. In wheat the decline was about go on the first quotations, and liberal buying by one or two large operators, followed by tailers, soon put the price up ic, or slightly over last night's figures. When the advance stopped the crowd was afraid to stand, and they ran from the wheat and let July down from 85% to 84%. After a gradual rally of a few points a rumor from New York on crop figures sent July up to 85%. A few minutes later Washington advices, of an alleged reliable nature, stated that the government figures would show a slight improvement. On this the price went straight back to 85te, where it closed. August sold between 842 @ 85 to, and declined from 85 to 86 tc. Corn was the weakest cereal on the floor, and no doubt helped to push down prices in the other pits. The prime reasons for the softening were the very large receipts, the big estimate for Saturday and the very fine weather. June sold between 521 @ 524c and closed at 524c; July sold down to 53 c. up to 53 c, down to 52 c. Oats were rather quiet and prices about to lower. July opened at 33 c and sold down to 32 c, where it closed. Provisions were duil, very little interest being manifested in the market. July pork opened 5c lower, at \$14 10, and sold off to the closing figure, \$14. July lard opened at 8 62 te and sold off to 8 57 to, where it closed. July short ribs opened at 7.62 e and closed at 7.60c. The leading futures ranged as follows:

Lowest. Closing. Wheat-June ... July..... August ... December. Corn-June..... August.... September Oats-June.... Cash quotations were as follows: No. 2. spring wheat, 841 @851c; No. 2 red, 851c; No. 2 corn, 521c; No. 2 oats, 33c; No. 2 rye, 61@62c; No. 2 barley, 67@68c; No. 1 flax-seed, \$1.30; prime timothy-seed nominal. Mess pork, per brl, \$13.95 @14; lard, per fb, 8.55c; short-rib sides (loose), 7.55c; dry-salted shoulders (boxed), 6@6.25c; short-clear sides (boxed), 8.10 @ 8.15c. Whisky, distillers' finished goods, per gal, \$1.20. Sugars, cut-loaf, 71@81c; granulated, 61c; standard

On the Produce Exchange, to-day, the butter market was very active: buyers from Eastern markets quite numerous; creamery 14 218c; dairy, 12 216c. Eggs very firm and receipts light; 14@144c.
Receipts—Flour, 13,000 brls; wheat, 29,000 bu;

corn, 343,000 bu; cats, 272,000 bu; rye, 2,000 bu; barley, 5,000 bu. Shipments-Flour, 5,000 brls; wheat, 38,000 bu; corn, 139,000 bu; oats, 17,000 bu; rye, 4,000 bu; barley, 1,000 bu.

## THE WEEK'S BUSINESS.

Better Feeling in Commercial Circles, but Transactions Are Not Unusually Large. NEW YORK, June 8.-R. G. Dun & Co.'s Review says: There is a better feeling in business circles and in some quarters actual improvement in sales, though, on the whole, transactions do not equal those of a year ago. The better feeling is due in part to more seasonable weather; in part, also, to a growing impression that no disturbing changes in tariff are likely to be made this year, but more largely to the deeided improvement in crop prospects. The outlook as to cereals, improves steadily, so that there is now reason to hope for a large yield of all grains except wheat, and for a yield of wheat exceeding by 20,000,000 bushels or more the estimates of a month ago, provided the weather continues fairly favorable. The annual report as to acreage and condition of cotton by the Financial Chronicle indicates an increase of 2 per cent in acreage, with condition on the whole rather more favorable than a year ago. Atlantic States and Texas appear rather less promising, but in the Mississippi valley all accounts agree that the prospect is better than at this time last year. Another encouraging feature is the increase in the output of pig-iron, which is not large, but any increase whatever with low prices now prevailing is significant.
The market for steel rails shows no change, and, while the sales of bar iron are a little larger, prices do not strengthen. The grain market has declined wheat, 1c, corn. 2½c, and cats ½c, while lard is ½c higher and pork unchanged. The improved crop prospects, both in the Mississippi valley and the Pacific States, at present outweigh the moderate increase in purchases of wheat for export. Sugar is unchanged in price, and coffee has yielded to. Dairy products have recovered a little from the depression of last

week, but oil has declined 4c. Views of holders and bidders are so far apart as to new wool that prices are hardly settled, but such quotations as appear indicate a lower The general range of prices of commodities

is about one-half of 1 per cent. lower than a week ago. In the stock market a small recovery in prices has occurred, but dellness prevails. Good reports of earnings are balanced by increasing rivalry between lake and rail routes and between Western trunk lines. The quick absorption of large amounts of bonds recently offered prevents any advance in foreign exchange, and puts aside apprehensions of specie exports, but the merchandise movement indicates a heavy balance payable abroad, either by specie or security. The Treasury has taken in \$1,500,000 more cash than it has paid out, getting scarcely any bonds, but the local market is glutted with money. Interior reports, with scarcely an exception, show money abundant and business quiet and moderate, with collections not entirely satisfactory. Yet the whole reports disclose a more hopeful tone with better weather and better crop prospects. The business failures during the last seven days number, for the United States, 207, and for Canada, 28 or a total of 235, as compared with a total of 205 last week, and 173 for the corresponding week of 1887. The business casualties on the Pacific coast are exceptionally numerous still, there be ing no less than forty-two failures reported there during the week, which is far above the

TRADE IN GENERAL.

average.

more, Cincinnati and Other Points.

Quotations at St. Louis, Philadelphia, Balti-ST. LOUIS. June 8.—Flour dull. INDIANAPOLIS MARKETS. Trade More Active in Most Lines with Firm

Prices. INDIANAPOLIS, June 8. In most departments a fair trade is in progress. Dry goods men are doing a good deal in filling orders for broken stocks, and on all lines of goods prices rule firm and steady. Druggists are seldom more busy than now. Not only is there a good demand for paints and oils, but for drugs generally, and prices on nearly all articles are firm in tone. The hide men are still talking duli trade and a low range of prices. Grocers are quite busy; the demand for sugars and coffe-s is good, especially for the former, as the season for putting up small fruits draws near. In commenting on the position of the three leading staple articles, coffees, teas and sugars, the New York Shipping List says: "Refined sugar rules firm, because the trust controls production; but heretofore the approach of the fruit season has quickened the demand and led to an expansion of production, which th us far has been absent this year. The manipulation of the trust has well nigh eliminated competition, and buyers have been unable to secure any advantage by stocking up in advance of their regular requirements. The position is such that sooner or later buyers will have to pay higher prices and a higher sugar market during the summer seems to be reasonably assured. Tea is also in an exceptionally strong position, both with respect to the present as well as the prospective supply; that is, the new crop promises to afford a much smaller supply than last year, and yet the distributive demand drags. The present month is likely to develop interesting as well as important features in the coffee market. The question is, in what manner consumption will bridge over the small gap of four weeks that now exists between a virtual famine and prospective abundance. The 'bulle' claim that the paucity of supplies will prove much more embarrassing during June than last month, and hence predict higher prices, while the 'bears' point to the falling off in consumption that has already resulted from the advance, the recruiting of supplies by importations from Europe, and probability of in-creasing receipts in Rio. The uncertainties of the outlook are such as to suggest caution, and foreshadow a sharp contest between speculative interests." The produce markets are active: prices on several articles decidedly higher. Green peas and beans in light supply and advance in price. The small fruits rule strong at quotations, which in some cases have been advanced. Eggs are hardly as firm as earlier in the week. Poultry has taken on a steady tone, while butter is flooding the market, and unless a very choice article, is difficult to dispose of.

GRAIN. Seldom is the Indianapolis grain market as flat as it was to-day. Buyers were few and were indifferent, and prices ruled weak all along the line. Track bids ruling as follows:

No. 2 red..... Corn-No. 1 white..... No. 2 white.... No. 2 yellow.... Sound ear yellow..... Oats-No. 2 white..... No. 3 white..... Hay-Choice timothy, 17.75 No. 1 timothy. 17.50
